## ALFA-LOK FASTENER STRIPS

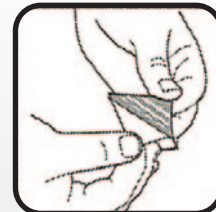

### Features

- Low-profile, water resistant & durable
- Inside, outside or upside down
- Super strong holding power packed into mere inches of hook-to-hook engagement
- High strength, long term attachment, where the fastener is infrequently opened & closed
- Snaps together with an audible click, so you know it's secure
- For indoor & outdoor use
- Water and UV resistant
- Secure hold even in extreme conditions
- Omnidirectional fastener attaches in any direction for maximum flexibility
- Great for mounting sensors, cameras, lights, & solar-powered accessories
